FOR IMMEDIATE RELEASE

LegalJenius Is Proud to announce [Ashcraft & Gerel](#) as their newest client

Ashcraft & Gerel has focused its practice on people injured by medical malpractice, defective or dangerous products, automobile accidents or workplace accidents.

Ashcraft & Gerel LLP is a large, experienced personal injury law firm of approximately 40 personal injury lawyers, with offices in Washington DC, Maryland, and Virginia. Their lawyers help injured people recover losses and damages resulting from malpractice, negligence, unsafe products, dangerous drugs, and work injuries giving rise to workers' compensation claims. In addition, this law firm has represented federal whistle blowers in cases (Qui Tam lawsuits) that have led to the recovery of many millions of dollars from federal contractors who were overcharging, cheating, defrauding or otherwise obtaining federal funds by wrongful conduct.

The law firm of Ashcraft & Gerel was formed more than 50 years ago. They have grown steadily, and in an era when law firms are often short-lived, they are going strong and expect to be around for another 50 years. They are one of the largest personal injury law firms in the country that limits its practice exclusively to representing injured victims. Ashcraft & Gerel lawyers have well earned reputations for providing aggressive and high quality representation, and they know injury law. They are a big time law firm devoted to helping the little guy.

LegalJenius goal is to create an easy to use and visually appealing web site that depicts Ashcraft & Gerel firm's unique image. We hope to make your firm's web site stand out from the rest as well.
